

PDT POUCHES

Narcotics Testing... Anytime, Anywhere

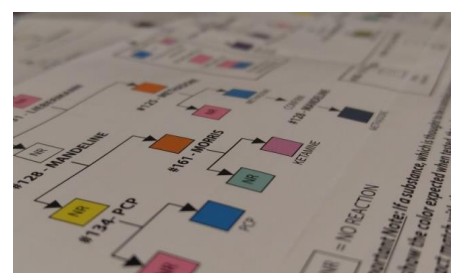

Mistral Security's PDT drug testing products provide the most comprehensive set of reagents of any manufacturer.

Presumptive Drug Test (PDT) provides officers with the capability to identify narcotics through a series of colorimetric tests that can be performed anytime, anywhere. This line of cost-effective, self-contained glass ampoule tests is easily transportable and include all of the tools to guide you through the process of identifying a suspicious substance.

Features of PDT

- Identify suspicious or suspected substances
- 10 tests per box
- The lowest per test cost
- Packaging designed for easy-to-use
- Quick test results
- Internationally proven test reagents

REAGENT VARIETIES

P/ N/	REAGENT NAME
085180	Mayer's Reagent
085101	Marquis Reagent
085104	Nitric Acid Reagent
085107	Dille-Koppanyi Reagent
085110	Modified Ehrlich Reagent
085113	Duquenois-Levine Reagent
085116	Acid Neutralizer
085119	KN Reagent
085122	Modified Scott Reagent
085125	Methadone Reagent
085128	Mandeline Reagent
085131	Lieberman Reagent (Club Drugs)
085134	PCP Reagent
085137	Opiates Reagent
085140	Modified Mecke's Reagent
085143	Methaqualone & PCP
085146	Talwin (Pentazocine) Reagent
085149	GHB Reagent
085150	GHB + Reagent (more definitive)
085152	Propoxyphene Reagent
085155	Chens Reagent (Ephedrine)
085158	Valium, Rohypnol Reagent
085161	Morris Reagent (Ketamine)
085164	Methamphetamine/MDMA Reagent
085167	Psilocybin Reagent
085170	Bath Salts: MDPV Reagent
085173	Bath Salts: Mephedrone
085183	Chlorides Reagent
085186	Sulfates Reagent
085189	Acetic Anhydride
085195	Bath Salts: PVP
085199	Methaqualone
085202	Mollies
085205 A/B	Synthetic Cannabinoids
